

**Coauthors (in alphabetical order):**

- 1) S.S. Al-Haj Baddar (University of Jordan, Amman)
- 2) D. Bazzanella (Politecnico di Torino, Italy)
- 3) M. Cantarini (Università di Perugia, Italy)
- 4) A. Ciolan
- 5) S. Fan (University of Georgia, USA)
- 6) A. Gambini (Università di Roma "La Sapienza", Italy)
- 7) J. Kaczorowski (Poznan University, Poland)
- 8) N. Kandhil (Hong Kong University, Hong Kong)
- 9) Y. Lamzouri (Institut Élie Cartan de Lorraine, France)
- 10) F. Luca (University of the Witwatersrand, South Africa and Max-Planck Institute for Software Systems, Saarbrücken, Germany)
- 11) R. Lunia (Max Planck Institute für Mathematik, Bonn, Germany)
- 12) F. Menegazzo
- 13) P. Moree (Researcher/Scientific Coordinator, Max Planck Institute für Mathematik, Bonn, Germany)
- 14) M. Migliardi (Università di Padova, Italy)
- 15) M. Morigi (Università di Bologna, Italy)
- 16) A. Perelli
- 17) J. Pintz (Alfred Renyi Mathematical Institute, Budapest, Hungary)
- 18) L. Righi (IT services, Università di Padova, Italy)
- 19) S. Saad Eddin (Johann Radon Institute for Computational and Applied Mathematics, Linz, Austria)
- 20) A. Sedunova (University of Warwick, England)
- 21) V. Settimi
- 22) A. Togbé (Purdue University, USA)
- 23) T. Trudgian (University of New South Wales, Canberra, Australia)
- 24) A. Zaccagnini (Università di Parma, Italy)
