

Domenico Salvagnin

Curriculum Vitae - March 2018

Contact information

Address: Department of Information Engineering
Via Gradenigo 6/B
35131 Padova, Italy.

Phone: +39 049 827 7943

Mobile: +39 349 160 7169

Email: salvagni@dei.unipd.it

Website: <http://www.dei.unipd.it/~salvagni/>

Research Interest

Theory and algorithms for Linear and Mixed Integer Linear Programming, Constraint Programming. Hybrid methods for Optimization.

Education and Qualifications

- | | |
|------------|--|
| 2017 | National Academic Qualification as Associate Professor. |
| 2011–Today | Assistant professor at the Department of Information Engineering, University of Padova. |
| 2009–2011 | Post-doc position at the Department of Pure and Applied Mathematics, University of Padova. |
| 2009 | Ph.D. in Computational Mathematics (Operations Research) at the University of Padova. Thesis title: <i>Constraint Programming Techniques for Mixed Integer Linear Programs</i> . Defended on March 26th, 2009. |
| 2006 | Licensed Professional Engineer. |
| 2005 | Master Degree (summa cum laude) in Computer Engineering at the University of Padova. Thesis title: <i>A dominance procedure for Integer Programming</i> . |

Publications

– Papers

1. M. Fischetti and D. Salvagnin. Feasibility Pump 2.0. *Mathematical Programming Computation*, 1:201–222, 2009.
2. M. Fischetti, D. Salvagnin, and A. Zanette. Fast approaches to improve the robustness of a railway timetable. *Transportation Science*, 43:321–335, 2009.
3. M. Fischetti and D. Salvagnin. Pruning Moves. *INFORMS Journal on Computing*, 22:108–119, 2010.
4. M. Fischetti, D. Salvagnin, and A. Zanette. A note on the selection of Benders' cuts. *Mathematical Programming B*, 124:175–182, 2010.

11. M. Fischetti and D. Salvagnin. Chasing First Queens by Integer Programming. In: *CPAIOR*. 2018, pp.(to appear).
12. D. Salvagnin. Symmetry Breaking Inequalities from the Schreier-Sims table. In: *CPAIOR*. 2018, pp.(to appear).

– Reports

1. T. Berthold, A. Lodi, and D. Salvagnin. *Ten years of Feasibility Pump, and counting*. Tech. rep. DEI, University of Padova, 2017.

– PhD thesis

1. D. Salvagnin. “Constraint Programming Techniques for Mixed Integer Linear Programs”. PhD thesis. University of Padova, 2009.

Prizes

1. Winner of the 11th DIMACS Implementation Challenge for the best computer codes for Steiner Tree problems (codes *mozartballs*, *mozartduet* and *staynerd* jointly developed with Matteo Fischetti, Markus Leitner, Ivana Ljubic, Martin Luipersbeck, Michele Monaci, Max Reschand Markus Sinnl), 2014.
2. Computational Optimization and Applications 2016 Best Paper Award for the paper “On handling indicator constraints in mixed integer programming”, together with Pietro Belotti, Pierre Bonami, Matteo Fischetti, Andrea Lodi, Michele Monaci and Amaya Nogales-Gómez.

Plenary and semi-plenary lectures

Feasibility Pump 2.0

13th Combinatorial Optimization Workshop, Aussois, France, January 2009

Three ideas for the Quadratic Assignment Problem

MIP Workshop, Waterloo, Canada, June 2011

Hunting for split cuts

16th Combinatorial Optimization Workshop, Aussois, France, January 2012

On Solving a Hard Quadratic 3-Dimensional Assignment Problem

18th Combinatorial Optimization Workshop, Aussois, France, January 2014

Detecting and exploiting permutation structures in MIPs

MIP Workshop, Columbus, USA, July 2014

Some experiments with Benders CGLPs

22nd Combinatorial Optimization Workshop, Aussois, France, January 2018

Invited lectures*Fast Approaches to Robust Railway Timetabling*

University of Newcastle, Australia, April 2010

A Relax-and-Cut Framework for Gomory's Mixed-Integer Cuts

University of New South Wales, Sydney, Australia, April 2010

Zuse Institute, Berlin, Germany, July 2010

Institute Montefiore, University of Liege, Liege, Belgium, October 2010

Hunting for split cuts

Zuse Institute, Berlin, Germany, August 2011

CORE, Louvain, Belgium, September 2011

University of Darmstadt, Germany, September 2012

Arizona State University, USA, January 2013

Detecting and exploiting permutation structures in MIPs

Arizona State University, USA, September 2014

Presentations and posters*A Local Dominance Procedure for Mixed-Integer Linear Programming*

AIRO Conference, Genova, Italy, September 2007

MIP Workshop Poster, New York, USA, August 2008

Minimal Infeasible Subsystems and Benders cuts

AIRO Conference, Ischia, Italy, September 2008

Feasibility Pump 2.0

Mathheuristics Workshop, Bertinoro, Italy, June 2008

Workshop on Bound Reduction Techniques, CPAIOR, Pittsburgh, USA, May 2009

AIRO Conference, Siena, Italy, September 2009

Constraint Programming Techniques for Mixed Integer Linear Programs

AIRO Conference, Siena, Italy, September 2009

An In-Out Approach to Disjunctive Optimization

CPAIOR Conference, Bologna, Italy, June 2010

A Relax-and-Cut Framework for Gomory's Mixed-Integer Cuts

CPAIOR Conference, Bologna, Italy, June 2010

Hunting for split cuts

SIAM OP11, Darmstadt, Germany, May 2011

Three ideas for the Quadratic Assignment Problem

CPAIOR Conference, Berlin, Germany, May 2011

CREST Workshop, Tokyo, Japan, March 2012

Randomness and Tree Search

ISMP, Berlin, Germany, August 2012

Orbital Shrinking: a new tool for hybrid MIP/CP methods

CPAIOR Conference, Yorktown Heights, USA, May 2013

Detecting and exploiting permutation structures in MIPs

CPAIOR Conference, Cork, Ireland, May 2014

Self-splitting of workload in parallel computation

CPAIOR Conference, Cork, Ireland, May 2014

Detecting Semantic Groups in MIP models

CPAIOR Conference, Banff, Canada, June 2016

Teaching

University of Padova:

- 2008/2009 lecturer in *Mathematical programming to support management decisions*, Mathematics.
 lecturer in *Operations Research I*, Information Engineering.
 teaching seminar *Implementation Techniques for LP and MIP solvers*.
 teaching seminar *Asset Allocation with Excel and VBA*.
- 2009/2010 lecturer in *Operations Research*, Computer Science.
 lecturer in *Operations Research I*, Information Engineering.
 lecturer in *Optimization*, Mathematics.
 teaching seminar *Optimization in the economic domain with GAMS*.
- 2010/2011 lecturer in *Operations Research*, Computer Science.
 lecturer in *Methods and mathematical models for combinatorial optimization*,
 Computer Science.
 professor in *Operations Research*, Mathematics.
- 2011-2014 professor in *Models and software for discrete optimization*, Computer Engineering.
- 2017-Today professor in *Models and software for discrete optimization*, Computer Engineering.

Theses supervised:

- 2012 M. Perin *A software to compute the symmetry group of Integer Linear Problems*
- 2012 V. Polonio *A MIP formulation for ROADEF/EURO 2011-2012 (machine reassignment)*
- 2014 E. Pasin *Algorithms for 2D Bin Packing (a survey)*
- 2014 A. Melchiori *Experiments with branching on general disjunctions*

Research Visits

- 2010 Visiting researcher at NICTA, Sydney, to study hybrid MIP/CP methods (joint work with prof. T. Walsh).

- 2010 Visiting researcher at Zuse Institute, Berlin, to work on the implementation/inclusion of Feasibility Pump 2.0 in the SCIP solver (joint work with T. Berthold).
- 2011 Visiting researcher at Zuse Institute, Berlin, to study and enhance primal heuristics within the SCIP solver (joint work with T. Berthold).
- 2011 Visiting researcher at Institute Montefiore, University of Liege, to study practical strategies for deriving cutting planes from multi-row unstructured MIP relaxations (joint work with prof. Q. Louveaux).
- 2012 Visiting researcher at Zuse Institute, Berlin, to work on the SCIP solver.
- 2013 Visiting researcher at Arizona State University, to work on assignment problems (joint work with prof. H. D. Mittelmann).
- 2014 Visiting researcher at Zuse Institute, Berlin, to work on cloud branching (joint work with G. Gamrath and T. Berthold).
- 2014 Visiting researcher at Arizona State University, to work on assignment problems (joint work with prof. H. D. Mittelmann).

Professional Experiences

- 2003-2004 Collaboration with the *Artisti Veneti* team of the University of Padova in the *Robocup Middle Size* project, as software developer.
- 2006-2007 Participation to the *CPDA051592: Integrating Integer Programming and Constraint Programming* project of the University of Padova.
- 2006-2008 Participation to the *ARRIVAL (Algorithms for Robust and online Railway optimization: Improving the Validity and reliability of Large scale systems)* European project.
- 2006-2008 Collaboration with the University of Bologna for the *Experimentation of algorithms for the resolution of optimization problems in the railway domain*, inside the European project *UE REORIENT (Implementing Change in the European Railway System)*.
- 2006-Today Reviewer for *Mathematical Programming*, *Mathematical Programming Computation*, *INFORMS Journal on Computing*, *Annals of Operations Research*, *Computational Optimization and Applications*, *Computers & Operations Research*, *Annals of Mathematics and Artificial Intelligence*, *4OR*.
- 2007-2009 Participation to the *Models and algorithms for robust network optimization* PRIN project, MiUR.
- 2009 Research grant on *Implementation and evaluation of new Benders decomposition techniques for Stochastic Programming*, University of Padova.
- 2009-2011 Participation to the *Progetto di Eccellenza 2008-2009: Integer Programming and Combinatorial Optimization* project of the Fondazione Cassa di Risparmio di Padova e Rovigo.

2011-2013	Participation to the <i>Computational Integer Programming</i> project of the University of Padova.
2011-2013	Participation to the <i>Nonlinear aspects in primal MILP heuristics, and in robustness</i> PRIN project, MiUR.
2011-Today	Technical editor for <i>Mathematical Programming Computation</i> .
2013	Collaboration with ALSTOM on train timetabling problems.
2015	Program Committee member for CPAIOR2014.
2014	Collaboration with Inthegra on car sharing problems.
2014	Scientific consultant for IBM ILOG CPLEX.
2015	Program Committee member for MIP2015.
2015-2017	Lead development scientist for IBM ILOG CPLEX.
2016	Senior Program Committee member for IJCAI-16.
2017	Program Chair and Conference Chair for CPAIOR2017.
2017	Program Committee member for CPAIOR2018.
2017-Today	Scientific consultant for IBM ILOG CPLEX.

Languages

Italian (native), English (fluent).

Skills

Advanced knowledge of the C/C++ programming language and Unix/Linux/Mac OS X.
Expert on advanced usage of MIP solvers (CPLEX/GUROBI/SCIP) and CP solvers (Gecode).
Good knowledge of the Python and Java programming languages, of algebraic modeling languages (OPL/GAMS/AMPL), of collaborative tools (Git/Subversion) and of Web development technologies.

Spare Time

ACM Member since 2004.

Software development, trekking, digital photography.

Domenico Salvagnin
