

# DISTINGUISHED LECTURER SERIES 2009

## **Prof. Christopher I. Byrnes**

Washington University in St. Louis, USA

The Analysis and Design of the Steady-State Behavior of Nonlinear Systems: Taming Nonlinear Excursions in the Spirit of Lagrangia and Liapunov

**February 4, 2009 – 15:30, Aula Magna A. Lepschy, DEI**

## **Prof. Pietro Perona**

California Institute of Technology, USA

Towards Categorization in Sensory Systems

**March 11, 2009 – 15:00, Aula Magna A. Lepschy, DEI**

## **Prof. Gerard Cornuejols**

Carnegie Mellon University, USA

Polyhedral Approaches to Integer Programming

**April 2, 2009 – 15:00, Aula Magna A. Lepschy, DEI**

## **Prof. Francis J. Doyle III**

University of California, Santa Barbara, USA

Robustness in Biological Networks: From Genes to Cells to Systems

**May 7, 2009 – 15:00, Aula Magna A. Lepschy, DEI**

## **Prof. Alan E. Willner**

University of Southern California, USA

Towards High-Performance and Reconfigurable Optical Communication Networks

**September 15, 2009 – 14:30, Aula Magna A. Lepschy, DEI**

## **Prof. Umesh K. Mishra**

University of California, Santa Barbara, USA

Gallium Nitride: The Next Dominant Semiconductor after Silicon

**September 25, 2009 – 15:00, Aula Magna A. Lepschy, DEI**

The 2009 Distinguished Lecturer Series is supported in part by:
