

# Domenico Salvagnin

Curriculum Vitae - March 2025

---

## Contact information

Address: Department of Information Engineering  
Via Gradenigo 6/B  
35131 Padova, Italy.

Phone: +39 049 827 7943

Mobile: +39 349 160 7169

Email: salvagni@dei.unipd.it

Website: <http://www.dei.unipd.it/~salvagni/>

## Research Interest

Theory and algorithms for Linear and Mixed Integer Linear Programming, Constraint Programming. Hybrid methods for Optimization.

## Education and Qualifications

- |            |  |
|------------|--|
| 2018-Today | Associate professor in Operations Research at the Department of Information Engineering, University of Padova.   |
| 2018       | National Academic Qualification as Full Professor.   |
| 2017       | National Academic Qualification as Associate Professor.  |
| 2011-2018  | Assistant professor at the Department of Information Engineering, University of Padova.  |
| 2009-2011  | Post-doc position at the Department of Pure and Applied Mathematics, University of Padova.   |
| 2009       | Ph.D. in Computational Mathematics (Operations Research) at the University of Padova. Thesis title: <i>Constraint Programming Techniques for Mixed Integer Linear Programs</i> . Defended on March 26th, 2009. |
| 2006       | Licensed Professional Engineer.  |
| 2005       | Master Degree (summa cum laude) in Computer Engineering at the University of Padova. Thesis title: <i>A dominance procedure for Integer Programming</i> .  |

## Publications

### – Papers

1. M. Fischetti and D. Salvagnin. Feasibility Pump 2.0. *Mathematical Programming Computation*, 1:201–222, 2009.
2. M. Fischetti, D. Salvagnin, and A. Zanette. Fast approaches to improve the robustness of a railway timetable. *Transportation Science*, 43:321–335, 2009.

3. M. Fischetti and D. Salvagnin. Pruning Moves. *INFORMS Journal on Computing*, 22:108–119, 2010.
4. M. Fischetti, D. Salvagnin, and A. Zanette. A note on the selection of Benders' cuts. *Mathematical Programming B*, 124:175–182, 2010.
5. M. Fischetti and D. Salvagnin. A Relax-and-Cut Framework for Gomory's Mixed-Integer Cuts. *Mathematical Programming Computation*, 3:79–102, 2011.
6. T. Koch, T. Achterberg, E. Andersen, O. Bastert, T. Berthold, R. E. Bixby, E. Danna, G. Gamrath, A. M. Gleixner, S. Heinz, A. Lodi, H. Mittelmann, T. Ralphs, D. Salvagnin, D. E. Steffy, and K. Wolter. MIPLIB 2010 - Mixed Integer Programming Library version 5. *Mathematical Programming Computation*, 3:103–163, 2011.

14. D. Salvagnin. Some experiments with submodular function maximization via integer programming. In: *CPAIOR*. 2019, pp.488–501.
15. P. Bonami, D. Salvagnin, and A. Tramontani. Implementing Automatic Benders Decomposition in a Modern MIP Solver. In: *IPCO 2020 Proceedings*. Ed. by Springer. 2020, pp.78–90.
16. T. Berthold, G. Hendel, and D. Salvagnin. Transferring Information across Restarts in MIP. In: *CPAIOR*. 2022, pp.24–33.

### – Reports

1. F. Cavaliere, M. Fischetti, R. Roberti, and D. Salvagnin. *Models and Algorithms for the Time Window Assignment Traveling Salesperson Problem with Stochastic Travel Times*. Tech. rep. DEI, 2024.

### – Books

1. T. Berthold, A. Lodi, and D. Salvagnin. *Primal Heuristics in Integer Programming*. Cambridge University Press, 2025.

### – PhD thesis

1. D. Salvagnin. “Constraint Programming Techniques for Mixed Integer Linear Programs”. PhD thesis. University of Padova, 2009.

### Prizes

1. Winner of the 11th DIMACS Implementation Challenge for the best computer codes for Steiner Tree problems (codes *m Mozartballs*, *m Mozartduet* and *staynerd* jointly developed with Matteo Fischetti, Markus Leitner, Ivana Ljubic, Martin Luipersbeck, Michele Monaci, Max Reschand Markus Sinnl), 2014.
2. Computational Optimization and Applications 2016 Best Paper Award for the paper “On handling indicator constraints in mixed integer programming”, together with Pietro Belotti, Pierre Bonami, Matteo Fischetti, Andrea Lodi, Michele Monaci and Amaya Nogales-Gómez.
3. CPAIOR 2019 Distinguished Paper Award for the paper “Some experiments with submodular function maximization via integer programming”.
4. ICAPS 2019 Best Paper Award for the paper “Lagrangian Decomposition for Optimal Cost Partitioning”, together with Florian Pommerening, Gabriele Röger, Malte Helmert, Hadrien Cambazard and Louis-Martin Rousseau.
5. Finalist of the MIP 2022 Computational Competition “A fix-propagate-repair heuristic for Mixed Integer Programming”, together with Matteo Fischetti and Roberto Roberti.

**Plenary and semi-plenary lectures***Feasibility Pump 2.0*

13th Combinatorial Optimization Workshop, Aussois, France, January 2009

*Three ideas for the Quadratic Assignment Problem*

MIP Workshop, Waterloo, Canada, June 2011

*Hunting for split cuts*

16th Combinatorial Optimization Workshop, Aussois, France, January 2012

*On Solving a Hard Quadratic 3-Dimensional Assignment Problem*

18th Combinatorial Optimization Workshop, Aussois, France, January 2014

*Detecting and exploiting permutation structures in MIPs*

MIP Workshop, Columbus, USA, July 2014

*Some experiments with Benders CGLPs*

22nd Combinatorial Optimization Workshop, Aussois, France, January 2018

*Benchmarking in MIP*

Dagstuhl Seminar 18071 *Planning and Operations Research*, Dagstuhl, Germany, February 2018

*Global Structures in MIP*

Dagstuhl Seminar 18071 *Planning and Operations Research*, Dagstuhl, Germany, February 2018

*Some experiments with submodular function maximization via integer programming*

23rd Combinatorial Optimization Workshop, Aussois, France, January 2019

*A fix-propagate-repair heuristic for Mixed Integer Programming*

MIP Workshop Computational Competition, Rutgers, USA, July 2022

*Computational Research 101*

IPCO Summer School, Madison, USA, June 2023

*Symmetry Handling inside the Xpress MIP solver*

Symmetry Handling for Satisfiability and Optimization Workshop, Eindhoven, The Netherlands, March 2025

**Teaching**

Courses (University of Padova):

- |           |  |
|-----------|--|
| 2008/2009 | lecturer in <i>Mathematical programming to support management decisions</i> , Mathematics.<br>lecturer in <i>Operations Research I</i> , Information Engineering.<br>teaching seminar <i>Implementation Techniques for LP and MIP solvers</i> .<br>teaching seminar <i>Asset Allocation with Excel and VBA</i> . |
| 2009/2010 | lecturer in <i>Operations Research</i> , Computer Science.<br>lecturer in <i>Operations Research I</i> , Information Engineering.<br>lecturer in <i>Optimization</i> , Mathematics.<br>teaching seminar <i>Optimization in the economic domain with GAMS</i> .   |
| 2010/2011 | lecturer in <i>Operations Research</i> , Computer Science.<br>lecturer in <i>Methods and mathematical models for combinatorial optimization</i> , Computer Science.  |

---

	professor in <i>Operations Research</i> , Mathematics.
2011-2014	professor in <i>Models and software for discrete optimization</i> , Computer Engineering.
2017-Today	professor in <i>Models and software for discrete optimization</i> , Computer Engineering.
2019/2020	professor in <i>Algorithms for Engineering</i> , Computer Engineering.
2020-Today	professor in <i>Convex Optimization</i> , Control Systems Engineering.
2020-Today	professor in <i>Heuristics for Mathematical Optimization</i> , Information Engineering Ph.D.
2025-Today	professor in <i>Advanced Topics in Optimization</i> , Control Systems Engineering.

## Service

### Student supervision and activities

Supervision of 31 bachelor theses and 14 master theses since 2012.

PhD dissertation committee member for the following candidates:

- Laurent Poirrier, University of Liège, 2012
- Gerald Gamrath, TU Berlin, 2020
- Gregor Hendel, TU Berlin, 2021
- Jakob Witzig, TU Berlin, 2021

Co-organizer in the years 2020-2021 of the competitive programming activity *The Coding DEI*, at the Department of Information Engineering, University of Padova.

### University

2017-Today	Member of the <i>Commissione Ricerca</i> , Department of Information Engineering, University of Padova.
2020-Today	Member of the PhD School Board, Department of Information Engineering, University of Padova.
2022	Committee member for the Italian Information Engineering state exam.
2024	Committee member for the Department VQR 2020-2024.

### Scientific Community

2006-Today	Reviewer for <i>Mathematical Programming</i> , <i>Mathematical Programming Computation</i> , <i>INFORMS Journal on Computing</i> , <i>Annals of Operations Research</i> , <i>Computational Optimization and Applications</i> , <i>Computers &amp; Operations Research</i> , <i>Annals of Mathematics and Artificial Intelligence</i> , <i>4OR</i> .
2011-Today	Technical editor for <i>Mathematical Programming Computation</i> .
2015	Program Committee member for CPAIOR-2014.
2015	Program Committee member for MIP2015.

---

2016	Senior Program Committee member for IJCAI-16.
2017	Program Chair and Conference Chair for CPAIOR-2017.
2017	Program Committee member for CPAIOR-2018.
2018	Program Committee member for AAI-2019.
2018	Program Committee member for CPAIOR-2019.
2019	Program Committee member for CPAIOR-2020 and CP-2020.
2020	Program Committee member for CPAIOR-2021.
2021	Program Committee member for CPAIOR-2022 and CP-2022.
2022	Program Committee member for IPCO-2022 and CPAIOR-2023.
2023	Program Committee member for CPAIOR-2024.
2024	Senior Program Committee member for CP-2024.
2024	Chair of the MIP Workshop 2024 Computational Competition.
2024	Program Committee member for CPAIOR-2025.
2025	Committee member of the MIP Workshop 2025 Computational Competition.

### Professional Experiences

2006-2008	Participation to the <i>ARRIVAL (Algorithms for Robust and online Railway optimization: Improving the Validity and reliability of Large scale systems)</i> European project.
2007-2009	Participation to the <i>Models and algorithms for robust network optimization</i> PRIN project, MiUR.
2009	Research grant on <i>Implementation and evaluation of new Benders decomposition techniques for Stochastic Programming</i> , University of Padova.
2009-2011	Participation to the <i>Progetto di Eccellenza 2008-2009: Integer Programming and Combinatorial Optimization</i> project of the Fondazione Cassa di Risparmio di Padova e Rovigo.
2011-2013	Participation to the <i>Computational Integer Programming</i> project of the University of Padova.
2011-2013	Participation to the <i>Nonlinear aspects in primal MILP heuristics, and in robustness</i> PRIN project, MiUR.
2013	Collaboration with ALSTOM on train timetabling problems.
2014	Collaboration with Inthebra on car sharing problems.
2014	Scientific consultant for IBM ILOG CPLEX.
2015-2017	Lead development scientist for IBM ILOG CPLEX.

---

2017-2019	Scientific consultant for IBM ILOG CPLEX.
2019-2021	Scientific consultant for FICO XPRESS.
2022-2023	Principal Investigator for Department Project <i>MIP<sup>2</sup>: Mixed Integer Programming and (AI) Planning</i> , 13k€.
2021-Today	Principal Investigator for Department Consultancy Project with FICO <i>Development of the Xpress Solvers</i> , 84k€/year.

## Languages

Italian (native), English (fluent).

## Skills

Advanced knowledge of the C/C++ programming language and Unix/Linux/Mac OS X. Expert on advanced usage of MIP solvers and CP solvers.

Good knowledge of the Python programming language, of algebraic modeling languages, of collaborative tools (Git) and of Web development technologies.

## Spare Time

ACM Member since 2004.

Software development, trekking, digital photography, fine woodworking.

Domenico Salvagnin
